Report Description
The Coeus Funded Proposals and PS Award Anticipated Funding report combines Coeus Institute Proposal information with PS award information at the time the proposal is awarded and set up in PS.

Purpose
The Coeus Funded Proposals and PS Award Anticipated Funding report combines Coeus Institute Proposal data with PS Award Data, using the Coeus IP number as the key. The total anticipated amount column reflects the anticipated amount at award setup and, regardless of the length of the award, the entire anticipated amount is recorded in the fiscal year in which the award was set up. In this sense, the anticipated amount is booked like a gift, and may not be the current anticipated amount. This information is used for the Trustees report and by ORPA, CEFR, and DFR.

Key Information
- This report does not contain any pending or declined proposals.
- This report returns proposals that were funded and recorded by ORPA in PS Financials on or after 1/3/2017. The total anticipated award dollars returned on the report were the anticipated dollars on the date when the proposal was awarded and recorded in PS. The PI, sponsor, prime sponsor, award type and activity type columns reflect what those fields were in PS when the proposal was awarded.
- Later reductions in anticipated amounts after the proposal was awarded are not reflected on this report.
- Supplements and renewals to existing awards after initial award setup each have their own proposal number with their own anticipated amount and recorded date on this report.
- To view the current anticipated dollars for an award, see the “Total Anticipated Funding” field on the Sponsored Award Summary, Notice of Award, or Award Inventory.
- Pre-awards set up in advance of the arrival of the award will not appear on this report until the official award arrives and the award is changed from “Pre-award” to “Accepted” status in PS.

**Column Definitions**

- **Funding Bucket Code**: If the award has a prime sponsor, the prime sponsor’s code is returned. If the award doesn’t have a prime sponsor, the sponsor’s code is returned.
- **Funding Bucket Name**: If the award has a prime sponsor, the prime sponsor’s name is returned. If the award doesn’t have a prime sponsor, the sponsor’s name is returned.
- **Funding Bucket Type**: If the award has a prime sponsor, the prime sponsor’s type is returned. If the award doesn’t have a prime sponsor, the sponsor’s type is returned.
- **Original Proposed Amount**: The total amount of the first sequence of the Coeus Institute Proposal (amount at the time the initial Coeus Institute Proposal was created.)
- **Total Proposed Amount**: The total amount of the Coeus Institute Proposal “max” or highest sequence. If the Coeus Institute Proposal has more than one Coeus Proposal Development proposal linked to it, the total proposed amount will be the amount of the last Coeus Proposal Development proposal linked to this IP number.
- **Submit Date**: Date the Coeus Institute Proposal was initially generated. The Coeus Institute Proposal is automatically created when the ORPA Grant and Contract Administrator approves the Coeus Proposal Development proposal.
• **PS Date Recorded:** Date the award was initially set up in PS Financials. If the award had a pre-award set up in advance of the arrival of the award, the PS Date recorded is the date the award is officially set up in PS (not the date the pre-award was set up in PS).

• **PS Date Recorded FY:** The FY that corresponds to the date the award was set up in PS Financials.

• **Total Anticipated Amount at Award Setup:** The anticipated amount of the award, supplement, or renewal at the time the new award was set up or at the time the supplement or renewal was added to an existing award. Later reductions in anticipated amounts after the proposal was awarded are not reflected on this report. To view the current anticipated dollars for an award, see the “Total Anticipated Funding” field on the Sponsored Award Summary, Notice of Award, or Award Inventory.

• **CEFR Date:** Date the award was initially set up in PS Financials. For pre-awards set up in advance of the arrival of the award, the CEFR Date recorded is the date the pre-award was initially set up in PS.
