Overview and Perspective

Financial Management Year-End Financial Review – General Guidance

Organizations should be reviewing their financial reports on a regular basis, but it's especially important as we approach fiscal year-end. Running the Spendable Balance Report is a good first step to reviewing your financial activity. Any chartstrings with a negative available balance (deficit) should be further investigated. Organizations should review the detail posted to these chartstrings (using Ledger Detail Report) to ensure that no transactions were posted in error. Corrections must be made through Labor Accounting if the transaction is labor based.

The Year-End Close process provides an opportunity for departments to review departmental labor charges to ensure that labor costs are being appropriately and accurately associated with their relevant source of funds in the General Ledger. It is also an opportunity to ensure the accuracy of any remaining encumbrances at year-end.

What You Should Do

Review labor charges in Labor Accounting:

- Confirm that Labor Accounting expense charges for individuals, including graduate student support, are reflected against correct earnings codes and against correct chartstrings.
- Confirm that FY22 and FY23 distributions are correct.
- Move any staff who may have defaulted incorrectly to A0000 or A0001 to other funds, if part or all of their compensation is to be covered by other fund sources.
- Confirm open encumbrances reflect outstanding unpaid payroll commitments on correct chartstrings.
- Review any remaining FY22 and FY23 encumbrances for clean-up and resolution:
  - FY22 remaining labor encumbrances will be automatically removed during the FY23 Year-End process.
  - FY23 remaining labor encumbrances will be restated in FY24 on the General Ledger during the FY23 Year-End process.

This Labor Accounting (LA) Reference Guide includes 4 sections:
1. Invalid Distribution Chartstrings for Labor Charges
2. Labor Accounting Warehouse Reports for Reviewing Departmental Labor Costs
3. Finding help in LA for Making Changes to Commitments and Distributions
4. Helpful links for further information about LA.

*********************************************************************

1. Invalid Distribution Chartstrings for Labor Charges

The Office of Finance and Treasury has put together a set of chartstring combination “rules” for assistance in cleaning up departmental labor charges for Year-end close. There are certain ChartField
combinations that are not considered to be valid on the PeopleSoft Financials General Ledger. While the University enforces some of these combo-edit rules through PeopleSoft Financials directly (for instance any G0001 Fund transactions require a Project and Activity), not all are systematically enforced.

Below is a set of ChartField combo-edit rules that should be followed. Please use the Labor Accounting Warehouse Reports to review the ChartField combinations in use for your department, and if you notice any of these “invalid” ChartField combinations, please modify the distributions for your faculty, staff and graduate students accordingly in the LA application. You can contact the Financial Service Center (“FSC”: 258-3080 or finance@exchange.princeton.edu) or LA Manager Clara Richardson if you need guidance on how to make corrections. Finance & Treasury staff may also be reaching out to your organization directly on how to “clean-up” these invalid ChartField combinations.

The following table provides the detailed distribution chartstrings which should contain NO labor expenses:

**2. Labor Accounting Prime Financial Information Warehouse (IW) Reports for Reviewing Labor Costs**

To run LA IW reports, access the Prime Financial IW reports via the Prime Portal page. If you do not have access to the Prime Financial IW, or to the LA reports folder within the IW, please contact the FSC.

In the Prime Financial IW, click on the Labor Accounting Tab.
Once you click on the Labor Accounting folder, the Labor Accounting reports appear:

A. Verify that Faculty and Staff are charged to the correct Distribution Chartstrings for FY22 and FY23:

In the Labor Accounting folder, select Earnings Detail by Chartstring. This provides detailed personnel expense by person within each departmental chartstring.

1. Verify that your department has no labor charges on the Invalid Distribution ChartField Combinations Table for FY22 and FY23.

Use the Earnings Detail by Chartstring Report to check that you have had no labor charges to invalid chartstrings.

   a. For example:
      i. Earnings Date Range: Earnings from 7/1/2021, Earnings Through 6/30/2023
      ii. Home Department = your department
      iii. Charged department = blank
      iv. Fund = A0000
      v. Program (starts with...) = F% (or use the tree prompt and choose “F%”)
      vi. No other prompts.
         Should return no results.

   b. Another example, for an administrative department:
      i. Earnings Date Range: Earnings from 7/1/2021, Earnings Through 6/30/2023
      ii. Home Department = your department
      iii. Charged department = blank
      iv. Fund = A0001  A0002  A0003  A0024
      v. No other prompts.
         Should return no results.

   c. Third example, for an academic department:
i. Earnings Date Range: Earnings from 7/1/2021, Earnings Through 6/30/2023
ii. Home Department = your department
iii. Charged department = blank
iv. Fund = A0000
v. Staff class = Admin
vi. No other prompts.
Should return no results.

Note: Reports should be run by Earnings period. Retroactive adjustments to earnings periods may have been made after the original charge posted.

The Earnings Detail by Chartstring Report generates a list of the individuals charged on each chartstring by individual, by earnings code. If regular salary charges are found on invalid ChartField combinations, they should be corrected in the Labor Accounting application for FY2022 or FY2023. See Section 3 below, Finding help in LA for Making Changes to Commitments and Distributions.

Changes for Overtime, Accrued Vacation, Severance, Childcare Assistance, Awards, etc., charged to sponsored research must be made via the LA Cost Transfer process. The LA Cost Transfer form can be found in the Policy Library on the Office of Finance & Treasury webpage. Changes to Overtime, Accrued Vacation, Severance, Childcare Assistance, Awards, etc., not charged to sponsored research are made with a spreadsheet journal correction. Please contact the Budget Office at manuallajournal@princeton.edu for assistance to create a spreadsheet journal correction.

2. Verify that all other labor costs charged against Chartstrings for your department are correct.
   d. Set up the prompts as follows:
      i. Earnings Date Range: Earnings from 7/1/2021, Earnings Through 6/30/2023
      ii. Home Department = blank
      iii. Charged department = your department
      iv. Optional: Customize Output Appearance-include program and project

Reminder: Reports should be run by Earnings period. Retroactive adjustments to earnings periods may have been made after the original charge posted.

When the Earnings Detail by Chartstring Report is generated, each distribution chartstring is listed separately. The report provides detail by period for each person charging to the chartstring with a subtotal by chartstring. The excel data extract of the report contains the complete chartstring detail, both Earnings Period and GL Accounting period, and Salary & Benefit encumbrances for each person.

If incorrect/invalid charges are found on departmental chartstrings, they should be corrected in the Labor Accounting application. If you need assistance on how to change a Commitment or Distribution in the LA application, see section 3 below, Finding help in LA for Making Changes to Commitments and Distributions.

B. Review and Clean-up for FY22 and FY23 Remaining Labor Encumbrances:
1. It is important for departments to review their staff’s commitments, payments and remaining encumbrances as part of the Year-end close process.
   - **FY22** remaining labor encumbrances will be removed as part of the Final Close process during Year-end close.
   - **FY23** remaining labor encumbrances will be restated in **FY24** on the General Ledger as part of the Year-end close process.

In the Labor Accounting folder, select *Earnings Detail by Person*.

2. Verify that faculty and/or staff in your department have no remaining unexpected labor encumbrances for **FY22** and **FY23** by running the Earnings Detail by Person report as follows. The report should be generated for **FY22** and **FY23** separately, to ensure that you see FY22 encumbrances separately from FY23 encumbrances.

   a. For example:
      i. Earnings Date Range: Earnings from 7/1/2021, Earnings Through 6/30/2023
      ii. Summarization Option: Total by Period
      iii. Customize Output Appearance with:
         1. Program, Project and Site
         2. Regular/Committed Earnings
         3. Encumbrance
      iv. Home Department = your department
      v. Charged department = blank
      vi. No other prompts.

   When the report is generated, each person’s commitments, payments & remaining encumbrances will be listed separately by chartstring. Most individuals will already have zero remaining encumbrances for **FY22**. You can export the report to PDF or Excel Data Extract (and create a simple Pivot Table with Emplid and Encumbrance Amount) for easy review of each person’s **FY22** or **FY23** status.

   If an individual’s status contains a remaining encumbrance in **FY22**, further investigation may be required.

   1. Verify that the person was paid correctly for the year. If the person was paid correctly for the year, any remaining encumbrance will be safely and automatically removed by the Final Close process during Year-end close.

   2. If the person does not appear to have been paid correctly, this may be because the person has moved from one home department to another during **FY22**. It may be necessary to run the report specifically for the person (remove the Home department filter, and instead insert the employee last name or emplid in the Person prompt), in order to see all commitments, both before and after the department change.

   3. If there is a remaining encumbrance of concern, contact HR or LA staff to investigate further.

**FY23** remaining encumbrances should also be reviewed to ensure that only appropriate encumbrances will be restated in **FY24**.
3. Finding help in LA for Making Changes to Commitments and Distributions

The Labor Accounting application has Help material right in the application:

LA Help contains extensive information on how to change commitments and distributions.

1. Click on LA “Help” in the LA banner in the LA application, or on “The Learning Center” icon on the LA Home page.

2. Click on “View outline” on the LA Help Introduction screen.

3. In the Outline, open the LA topic of interest:
   a. Manage Commitments & Distributions (Basics)
   b. Manage Grad Student Commitments & Distributions
   c. Manage Labor on Sponsored Projects

Within each topic, you can see a video of the process, or step through the process in an interactive video, or read through the steps with PDF.

If you need additional assistance, please contact the Financial Service Center at finance@exchange.princeton.edu or 258-3080, or contact LA Manager Clara Richardson.

4. Helpful links for further information about LA.

   • Prime Portal: https://prime.princeton.edu/. Click on Information & Training, then follow options below.
   • Web pages: Prime Portal > Information & Training > Labor Accounting (scroll down to Labor Accounting section – Labor Accounting header in black)
   • Training Materials: Prime Portal > Information & Training > Training & Reference Materials > Labor Accounting
• The “Learning Center” icon on the Labor Accounting application Home Page, or the “Help” on the LA application banner at the top of each LA screen.
